

## Database Installations

*Ready to put Oracle on a new server?*

Keeping up with the latest technology is a continuous challenge. Annams has years of experience installing and upgrading Oracle software on the most popular platforms. Whether you purchase Oracle from Annams or you already have it, Annams can install the Oracle database in 1 day. When Annams is finished, your database will be better than before, with the ability to take advantage of the new features in the latest Oracle release.

Consulting

## Database Installation Services

### Duration\*

- Windows NT/2000: 1 day
- Unix/Linux: 2 days

### Cost\*

- Windows NT/2000: \$1,200
- Unix/Linux: \$2,400

\* Time and cost estimate is based on a machine with no Oracle software previously installed.

## Deliverables/Scope

1. Install Oracle Database
2. Test install by creating a small test database and performing database operations to verify the success of the installation/upgrade.

If you have questions about the system requirements or capacity planning for your installation or upgrade, we can help with that too.

## Database Upgrade Services

Upgrade effort will depend on existing database version, database size in terms of number of tables, procedures, etc., and number of users. Please call us for a custom quote for your upgrade needs.
