## Database Migrations and Conversions

With a pre-defined set of proven business practices, Annams' Database Migration Services dramatically reduce the complexity, time, and cost associated with moving to a better technology platform--with the security of knowing that your systems have been accurately migrated. In a market where speed and efficiency are the ultimate competitive advantage, Oracle9i Database Migration Services are simply the best investment an organization can make. Oracle9i Database Migration Services are based on Oracle's industry-leading database and development tools. We offer limited and full-service migration services as well as pre-migration studies.

### Database Migration Study

The purpose of the Technical Evaluation is to conduct a technical analysis of the conversion project in order to provide a detailed conversion plan. Annams follows a prescribed methodology for database migrations and conversions available upon request.

#### Duration

- 5 days

#### Cost

- \$6,000

### Deliverables/Scope

The following tasks will be accomplished during the Technical Evaluation. As a result of the Conversion Study Evaluation, the project sponsors will be presented a conversion plan that will contain the following Sections:

1. Requirements Analysis
2. Application Grouping and Analysis
3. Archival Data Analysis
4. System Scripts and Batch Jobs Analysis
5. Network, Hardware and Software Need Assessment
6. Application Impact Analysis
7. Documents' Update Recommendations
8. Time and Cost Estimates for Implementation
9. Back-out Needs and Parallel Application Run Analysis
