RapidExec Human Resources

RapidExec Human Resources, a comprehensive, feature-rich implementation service, is designed to deliver a complete human resources automation system that allows your company to lower administrative expenses and improve information access and quality. Leveraging the power of the Oracle Human Resources application, this offering allows HR professionals and management across the organization to focus on improving human resources practices and provides business information so your company may achieve its strategic goals and objectives. This offering also provides a robust foundation for strategic workforce management and supports business growth by automating manual business processes and routine employee activities. What's more, by using the RapidExec approach focusing on enabling a core set of features, this offering is designed to deliver an operational system in 65 business days or less.

RapidExec Human Resources Services

Annams Consulting will install the Human Resources predetermined components of the Oracle E-Business Suite, and will guide your company through the implementation process all the way through business system testing.
